The Milton Foundation for Education Honors Seven Educators with The Outstanding Teacher of the Year Award for 2006

Six educators from the Milton Public Schools on Tuesday, May 23, 2006 will receive the Milton Foundation for Education's Outstanding Teacher of the Year Awards for 2006 and another will receive an annual leadership award at a ceremony at Milton High School.

Milton's outstanding teachers, who were nominated by parents and students and selected by a panel of foundation members and outside educators, are: Collicot Elementary School fifth grade teacher Anne McIntyre, Cunningham Elementary School third grade teacher Karen McGrath, Glover elementary school second grade teacher Kathie Curran, Tucker Elementary School fourth grade teacher Alexandra Sewall, Pierce Middle School computer and math teacher Greg Forge, and Milton High School English teacher Stephen Collyer.

Glover third grade teacher Kathy Spinks will receive the Mary Grassa O'Neil Award for Leadership in the Milton Public Schools, which is presented by the foundation on behalf of the Milton schools.

The outstanding teachers and their students were surprised with the news in classroom celebrations earlier this month. The recipients receive commendations from local elected officials, a plaque, an award of \$250, and their names are added to a plaque at Milton High School.

The Outstanding Teacher program is part of the MFE's goal to acknowledge the professionalism, innovation and dedication displayed by the town's public school teachers, counselors and specialists who educate more than 3,400 Milton children each day in four elementary schools, Pierce Middle School and Milton High School.

The Milton Foundation for Education is a non-profit organization dedicated to supporting the educational programs of the Milton Public Schools. Throughout the year, the Foundation awards grants to teachers and specialists to support their work; recognizes the system's most outstanding teachers; and raises funds to supplement programs throughout all schools as well as the ongoing work of the foundation.
